

Judy Ann Lifferth

Moms Off Meth Program

Judy Ann Lifferth was born in San Francisco, raised in northern Idaho and attended school at Brigham Young University majoring in Family Relations and Child Development.

She is a mother of five children and grandmother to 14 grandchildren. She and her husband Ernest have been married for 34 years. He is employed at Cummins Inc. as a Director of Design for Six Sigma. They have lived in Indiana for over 16 years.

Judy has always been pro-actively involved in community affairs and programs as a volunteer. She has been coordinating “National Family Week”, a program to build, strengthen and encourage strong families for over 16 years. In addition she coordinated a “Youth Salute” program with three local high schools for ten years to help give recognition to seniors that have demonstrated strong leadership values and principles. For several years she coordinated a community wide program on “Blue Ribbon Parenting” that focuses on strengthening and improving parenting skills. It was a result of facilitating a parenting class to some court-mandated women that moved her to action to help organize and support the M.O.M, Moms Off Meth program.

She is a member of The Church of Jesus Christ of Latter-day Saints and has served in various leadership capacities working with children, youth, and women. She also served as a Public Affairs Director for her Church.

Her greatest joy is grounded in her marriage, her children, and grandchildren. Her legacy will be one of love, trust, and charity to all she meets.
